NUCLEAR SHIELDS

MOBILE PET BARRIER

Our mobile shields are designed to protect personnel from 511 KeV while still maintaining the ability to perform their actions. Our mobile PET protection barrier is shielded with 10, 20 or 30 mm lead and has a lead glass viewing window with a full lead equivalency to provide visibility of the actions performed. The stainless steel tray and standing platform can both be adjusted in height. This allows for an ergonomic position for people of all heights.

Product code	Outside dimensions	Lead thickness
MB111	1190 x 555 x 1655 mm	10 mm
MB112	1190 x 555 x 1655 mm	20 mm
MB113	1190 x 555 x 1655 mm	30 mm
